SR4

What tasks are unfinished from sprint 4?
- All tasks from sprint 4 has been completed

What practices should we continue doing next sprint?
- Having consistent standup meetings
- Contacting product owners when needed
- Having properly formatted commit messages

What are some new practices that we might want to use next sprint?
- Constantly check develop branch to make sure a merge does not break develop branch
- Get latest changes before merging back into develop
- Become more consistent with moving Jira tickets so the burndown chart has a more gradual decrease

What are some harmful practices that we should stop doing?
- Not properly checking before merging. Some pieces of code were overwritten as a result

What were some bad experiences during sprint 4?
- Some features of the app got overwritten and had to be rewritten before demo

What were some good experiences during sprint 4?
- Group maintained good coordination and communication
- Main features, which were the main goal for sprint 4, were finished
- Pull requests were made for each finished feature
- All required, main features of the app were polished and delivered
